### **NOW AVAILABLE** **Arched Botanica Garden Door**

FEN-TECH, Inc., a Superior, Wisconsin based company, has added an arched door to their Botanica Garden Door line. "We're pleased to offer this arched addition to our quality Botanica Garden patio door product line," says Mike Mirau, President of FEN-TECH, Inc. "It is important to continually produce new types of products to give our distributors and their customers more options -- it's important for businesses and consumers who are looking for these types of high style, high design options for the high-end housing market."

Botanica Garden Doors combine innovative styling and engineering design with energy efficient performance that complements any home. Botanica Garden Patio Doors come standard with stainless steel operator hardware at no additional cost. This line also offers 6-9/16 jamba for 2x6 construction.

Botanica Garden Doors are manufactured from virgin vinyl compounds that insure a maintenance free, high strength door. The multi-hollow, fusion welded design adds structural integrity to resist warping, bowing, and twisting.

Botanica Garden Doors offer a unique "rain shed" weather-stripping design, full height gear hinge, and a warm edge spacing system for energy efficiency. They are available in single patio, French, or center hinged and come in two colors, white and tan.

For more information contact Matthew Mirau, Botanica Garden Door, Division of FEN-TECH, Inc., 1510 North 5th Street, Superior, Wisconsin 54880. Phone: 715-392-9500/Fax 715-392-9505. Download photos at: <http://www.fentechinc.com/advsup> End
