From: Mike Mirau  
President, FEN-TECH, Inc.

## **NEW ARCHED BOTANICA WINDOWS NOW AVAILABLE**

FEN-TECH, Inc., a Superior, Wisconsin based company, has added an arched window line to their Botanica products. "These new windows are a great addition to our Botanica line," says Mike Mirau, President of FEN-TECH, Inc. Mirau also states, "We are pleased to offer these windows as a complement to our recently introduced Arched Botanica Door products and Arched Casement Windows to manufacturers whose customers have demands for these specialty products."

Botanica single hung windows come in a variety of styles including:

1. Extended Half Round – Shown with a colonial grid pattern and sunburst pattern top. These windows are ideal for both new construction and as replacement windows.
2. Arch Top – Shown with a perimeter, or Queen Anne, grid system that gives this window a historical look. It is an economical choice for contractors and ideal for light commercial brick building replacement.
3. Gothic Top – Design incorporates traditional colonial with common gothic. The criss-cross pattern top is perfect for church applications with the option of specialty obscured or patterned glass in the Gothic arch.

All Botanica Windows are available in white and tan, and are available with state-of-the-art heat reflective, easy-clean coated glass. Custom sizes are available upon request. Integral nail fin design is available for new construction projects or with a block frame option for replacement construction.

Botanica Windows are manufactured from virgin vinyl compounds that insure a maintenance free, high strength window. For more information contact Matthew Mirau, Botanica Products Division of FEN-TECH, Inc., 1510 North 5th Street, Superior, Wisconsin 54880. Phone: 715-392-9500/Fax 715-392-9505.
